Spacious and beautiful Bedrooms

Alfresco Living

(including hardwood decks and patios)

Pergolas | Bali Huts | Spas

Landscaping | Retaining Walls | Fencing

(including driveways and pathways)

Our ethic to run a successful business is to only produce quality work and keep our clients up to date at all times.

We also ensure that a Jay Drew Quality Builders' work site be maintained as a compliance safe, organised and tidy construction zone.

Designed for contemporary living styles.

Thinking of building ...

From purchasing a 'House and Land' package right through to a 'Turnkey' package, choosing to build a home can be one of the biggest life decisions you can make.

Jay Drew Quality Builders' goal is to ensure that the co-ordination of all trades run smoothly to minimise delays and worry for the owner.

We only engage the services of sub-contractors that have experience, produce quality workmanship and hold all the necessary licences. Generally, these are the same sub-contractors from project to project.

Detailed plans are a necessity to ensure both builder and owner are aware of exactly the specification requirements for the home. A detailed specification, detailing the scope of works, will be drawn up to ensure all parties are aware of who is purchasing / selecting the finishes. Both parties will sign off on this before work commences.

Thinking of renovating or adding an extension ...

30 years ago, people demanded different qualities from their homes. Renovating your home is an opportunity to modernise the way you live.

Whether you are renovating your kitchen, bathroom, carport enclosure or desire a room addition, we offer expert knowledge and design services tailored to your needs. We take a fresh look at your space, offering planning ideas to maximise useability and your personal style.

We specialise in small renovations through to large extensions with a focus on also minimising inconvenience to your lifestyle. Many renovations and extensions are completed with owners remaining at home during the works and continuing successfully their daily activities. These projects can even be completed should you choose to go away on holidays - we can keep you up to date with the progress as little or as often as you request.
